Ashburn, VA US

Domo Tactical Communications (DTC) Government Solutions

FOR IMMEDIATE RELEASE

Domo Tactical Communications (DTC) Government Solutions appoints John Cremins the President to lead the Business Unit

Asburn, VA - Domo Tactical Communications (DTC), a leading provider of advanced wireless communications solutions, is pleased to announce the appointment of John Cremins as the President of DTC Government Solutions. In his new role, Mr. Cremins will lead the business unit responsible for providing government solutions, with a focus on growing the company's presence in the US market.

Mr. Cremins is a Naval Academy graduate with an MBA from Georgetown University and brings over 20 years of experience in finance, sales, and government solutions to DTC. He has a proven track record of success in building and growing businesses, and has a deep understanding of the government market. Mr. Cremins will be based in Ashburn, VA.

"We are thrilled to have John join our team," said Paul Sangster, Division President of Codan Communications. "His expertise and leadership will be instrumental in driving growth for our government solutions business in the US market."

DTC is a global leader in advanced wireless communications solutions, providing products and services to the defense, law enforcement, and public safety markets. The company's comprehensive range of solutions includes surveillance, communication, and intelligence gathering technologies, as well as support and training services.

"I am excited to join DTC at this pivotal time in the company's growth," said Mr. Cremins. "I look forward to working with the talented team at DTC to deliver innovative solutions to our government customers, and to drive growth in the US market."

About DTC, Domo Tactical Communications

Domo Tactical Communications (DTC) has been at the forefront of innovation for over 50 years, developing leading edge communication technologies for successful operations in demanding environments, where COFDM technologies provide longer range and penetration. As a global leader of wireless communication, DTC works with military, law enforcement, counter-terror units, governments, robotics and autonomous operations and system integrators on key surveillance and communication challenges.

DTC's mission critical solutions secure, share and communicate real-time video, voice, and data to enable Shared Situational Awareness (SSA) on land, on sea, in the water and in the air. DTC's Cutting-edge Mobile Adhoc Network (MANET) Mesh radio solutions deliver ultra-low latency, end-to-end encryption and are used globally on-board USV, UAV and UGV platforms to support mobile, long range semi-autonomous and autonomous operations.

DTC was acquired by Codan in 2021. DTC consists of Spectronic, Corp Ten International, and Domo Broadcast Systems. Backed by an award-winning engineering team, DTCs trusted technology is at the heart of everything we do.

DTC has a global reach, with regional offices based in the United States, United Kingdom, Denmark, Dubai, Singapore, and Australia.
